

Marketing Internship | EMEA Motive Power

Contract: Minimum 6-8 months

Place of Work: Bielsko-Biała / Home-based (hybrid-working)

Start Date: May 2023

Do you have good administrative and organizational skills with a keen interest in marketing and design? Join our fast-paced team today!

We are offering the opportunity to work within the EMEA Motive Power Marketing Team, to include collaborative working with our Product Management and Commercial teams supporting a wide range of Marketing activities, projects and initiatives.

The successful candidate should:

- Be confident and ready for a range of tasks such as literature consolidation, graphic design, e-marketing and events support
- Have good writing skills as well as having a friendly outgoing approach
- Have good organizational and people skills
- Be able to communicate effectively
- Be able to work well with others and on their own
- Be able to apply their own initiative, as well as understand the importance of teamwork
- Have knowledge of InDesign / Adobe (not mandatory)
- Have good English skills (written and spoken level)

We will give you the chance to:

- Work with an international, global company for industrial applications
- Develop professional skills and get hands-on marketing experience
- Be part of a great team and culture at EnerSys®

To apply, please send your CV to: rekrutacja@pl.enersys.com with a covering letter marked: **"Marketing Internship EMEA MP"**

Please add the following declaration within your submission:

"I hereby give consent for my personal data to be processed by EnerSys® for the purpose of conducting recruitment for the position for which I am applying."

Closing Date: 30th April 2023.

Due to high levels of interest, we can only respond to our chosen, short-listed applications.
Thank you for your interest in EnerSys® Motive Power Marketing!

*We are proud to be **EnerSys®**.

Power/Full Solutions

ABOUT ENERSYS®

EnerSys®, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Energy Systems, which combine enclosures, power conversion, power distribution and energy storage, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles requiring stored energy solutions. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications. EnerSys® also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. With the NorthStar acquisition, EnerSys® has solidified its position as the market leader for premium Thin Plate Pure Lead batteries which are sold across all three lines of business. More information regarding EnerSys® can be found at www.enersys.com.
